In partnering with Deakin University, IVET is accessing the latest evidence-based models for delivering educational programs to schools. These models are currently being rolled out in primary and secondary schools and universities in Australia and throughout Europe and Asia.

We provide access to high-quality teaching and learning materials

All your learning needs in the one place

The TransformUs Program

- TransformUS is a free program that offers a unique efficacious online whole-of-school health & education initiative for teachers, schools, and parents.

- TransformUs is underpinned by 14 years of research & real-world implementation in primary schools.

- TransformUs complements the 5 elements of FISO 2.0 to develop the learning and wellbeing of every student.

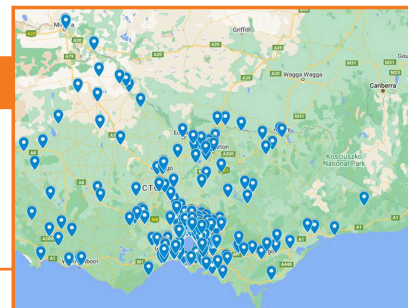

- TransformUs is aligned to the Australian Professional Standards for teachers.

Mapped to Victorian & Australian curriculums

TransformUs has already reached 513 schools across Victoria and Tasmania.

In collaboration with Deakin University, IVET is giving schools, teachers, and students the skills and knowledge to adapt the resources to drive student agency by:

Using a familiar and easily adaptable instructional model (GANAG)

Supporting teachers to use High Impact Teaching Strategies (HITS) and active pedagogies in the delivery

Aligning with and fulfilling VCE standards and requirements (as outlined by VCAA)

Supporting students who respond best to hands-on, experiential learning, framed around real-world and interest-based tasks
